Finding the right plan doesn't have to be hard.

Here are some things to know when you're shopping for the best plan for you and your family.

- **You can get help finding the right plan for you.**
Looking at Affordable Care Act (ACA) Marketplace plans on [healthcare.gov](https://www.healthcare.gov) can be overwhelming. Consider getting advice from an agent licensed by the state—they're bound by law to be honest and trustworthy. Many also speak Spanish and Creole.
- **You can get coverage even if you have a preexisting condition.**
Even if you have a medical condition, you can still get a Marketplace plan. And more good news: It won't cost you more, and there aren't any coverage limitations either.
- **Insurance plans may offer different doctors, hospitals and other providers.**
Make sure any doctors or providers, hospitals, pharmacies and other facilities you use will take the insurance plan you are considering.
- **You may get help paying for your health plan.**
More than 1 in 3 customers in Florida selected a plan for \$10 per month or less after subsidies in 2022.¹ And if you have access to health coverage through your job, your family members might now qualify for an ACA plan with financial assistance.²
