As you use your plan throughout the year, your out-of-pocket costs will go down.

Start of Your Plan

Each year, you'll need to reach your deductible. This is the dollar amount you pay for certain covered services before your plan helps pay for in-network services.

Coinsurance Begins

You'll pay a percentage of what's charged and we'll cover the rest.

Out-of-Pocket Maximum Reached

Once you've reached your out-of-pocket max for in-network covered health services, we've got you covered for the rest of the plan year. Not everything you pay (like your premium or services that aren't covered) applies.
