

CMS Conducts Risk Adjustment Data Validation Audit

The Centers for Medicare & Medicaid Services (CMS) will be performing a contract-level risk adjustment data validation audit (RADV) for Medicare Part C (Medicare Advantage) data for the 2014 benefit year.

This means we may request medical records for your BlueMedicareSM Medicare Advantage HMO, BlueMedicare Medicare Advantage PPO and/or BlueMedicare Medicare Advantage RPPO patients selected for the audit.

The CMS audit applies to Medicare Advantage members with **service dates from January 1 through December 31, 2014**. CMS will review the data and medical documentation for accuracy and validate that the records are complete. The audit helps ensure that risk-adjusted payments are accurate.

Privacy Concerns

The collection of risk adjustment data and requests for medical records to validate payments to Medicare Advantage organizations do not violate HIPAA privacy provisions. Therefore, your patients will not need to authorize the release of risk adjustment data or medical record requests for this CMS audit.

Thank you for your cooperation. If you have questions about the audit, please email your inquiry to rpmchartprocurement@floridablue.com.
