COVID-19 Provider Billing Guidelines

In response to the coronavirus disease (COVID-19), we’ve established billing code guidelines for our Commercial, Affordable Care Act (ACA), Medicare Advantage and Federal Employee Program® (FEP) lines of business. To ensure proper, timely reimbursement, please submit claims using the following guidelines. All claims billed by a provider must effectively meet the accepted standard of care for the condition being treated.

Note: Please check these guidelines often as they will be updated on a regular basis. These remain in effect until further notice.

Questions and Answers

What if I ordered the kit to test my patient?
The testing kit does not constitute billing the procedure code. Please include the E&M code to represent the face-to-face visit and the collection of the specimen.

What if an actual laboratory is performing the test?
Please bill the claim with CPT code 87635/HCPCS U0002 to represent the test. Note: This would not normally be billed by physicians or urgent care centers.

What if I am awaiting the results of a COVID-19 test?
Please submit the claim to Florida Blue as soon as possible with the applicable COVID-19 diagnosis code for the detection of the virus. If the test comes back with a positive result, please submit a corrected claim with diagnosis code B9729 or U071.

For the COVID-19 test, what procedure codes should I bill with?
When performing and analyzing the COVID-19 test, use the applicable procedure codes: U0001, U0002, U0003, U0004, G2023, G2024, 0223U and 87635.

For the COVID-19 test, what place of service should I bill with?
For procedure codes U0001, U0002, U0003, U0004, G2023, G2024, 0223U and 87635 performed onsite, bill with place of service Off Campus Outpatient Hospital (19), On Campus Outpatient Hospital (22) and Independent Laboratory (81).

For the COVID-19 serology test, what procedure codes should I bill with?
When performing and analyzing the COVID-19 antibody test, use the applicable procedure codes: 86328, 86769 and 0224U. The antibody test must be medically necessary and ordered by a physician or qualified health professional. If the antibody test is billed with a surgery, the antibody test will be reimbursed within the cost of the surgery.
How do I bill for a specimen collection?

- For an in-office visit, bill with procedure code 99211 if there is no physician or qualified health professional involvement; or 99212 or greater if a physician or qualified health professional is involved. Please do not bill a modifier (including 26) with the test code for the specimen collection (U0001, U0002, U0003, U0004 and 87635).
- For homebound or inpatient (not in a hospital), bill procedure code G2023.
- For skilled nursing facility and home health agencies, bill procedure code G2024.
- For outpatient facility, bill procedure code HCPC C9803.

Are CPT 99000 and 99001 reimbursed separately for specimen collection?

If your fee schedule includes payment for specimen collection with no E&M service, you will be reimbursed for the specimen collection.

How do facilities bill for off-campus testing?

For facilities that are operating COVID-19 testing in a separate location from the main facility location (e.g. parking lots, parks, football stadiums), the National Uniform Billing Committee (NUBC) recommends that the facility submit a Hospital Outpatient Type of Bill (013x) using the facility’s main address and National Provider Indicator (NPI) with a Disaster Related (DR) condition code as directed above. The DR condition code would flag that the outpatient claim is a COVID-19 testing site.

Should we use the “DR” condition code?

To continue to track COVID-19-related care, the NUBC recommends that institutional claims for COVID-19 diagnosis or treatment should include:

- The “DR” (disaster related) condition code, which is designed to identify claims that are or may be impacted by specific policies related to a national or regional disaster/emergency.
- One of the following diagnosis codes, as included in the interim ICD-10-CM Guidelines for Coding and Reporting:
  - B97.29 (other coronavirus as the cause of disease classified elsewhere) for services provided before April 1, 2020.
  - U07.1 (COVID-19) for services provided on or after April 1, 2020.
  - Z03.818 (encounter for observation for suspected exposure to other biological agents ruled out).
  - Z20.828 (contact with and (suspected) exposure to other viral communicable diseases).
- An appropriate service date. The “DR” condition code should be used for COVID-19 related care occurring since January 27, 2020. This is the date the Department of Health and Human Services declared coronavirus as a federal public health emergency.

What if the COVID-19 test is part of an inpatient stay?

The member cost share will be waived for the COVID-19 testing procedure. The additional procedure codes will apply the standard cost share when billed with an inpatient place of service (21).

What if the COVID-19 test is part of an outpatient stay?

The member cost share will be waived for the COVID-19 testing procedure. The additional procedure codes will apply the standard cost share when billed with an outpatient place of service (22).
What services are covered for virtual visits for State Group members?
The State is offering telemedicine benefits for State employees during the COVID-19 pandemic for the length of the Governor's Executive Order. We have implemented Teladoc (in-network only) and virtual visits (in-network and out-of-network) at $0 cost share for the member effective March 26, 2020. For State Group members, providers must include both visual and audio components when providing services for the virtual visit to be covered. Audioonly services are not covered for State Group members.

Is Florida Blue covering occupational, physical and speech therapy virtual services during the COVID-19 pandemic?
OT, PT and ST visits are available through virtual visits with in-network providers. Florida Blue will reimburse these virtual visits provided by qualified health care professionals through interactive technology. Benefits will be processed in accordance with the member’s plan. This change is effective for dates of service beginning March 15 until further notice. Reimbursable codes are limited to the specific set of OT, PT and ST therapy codes shown above.

Is Florida Blue covering audio-only virtual visits, if video capability is not available?
- CMS is temporarily allowing audio-only visits if video capability is not available. Visits provided consistently with CMS guidelines will be covered for Medicare Advantage members.
- Florida Blue is temporarily allowing audio-only virtual visits if video capability is not available. Audio-only virtual visits provided consistently with virtual visit billing guidelines will be covered for Commercial / Affordable Care Act (ACA) members. Note: The State Group will not cover audio-only virtual visits. Please refer to the member’s plan on their insurance card.

Note: These guidelines may not apply to certain members who are covered through self-insured administrative services only (ASO) plans or members of other Blue Cross and/or Blue Shield Plans who may access our provider networks through the BlueCard® program. Remember to ask your patients for a copy of their member ID card at each visit and verify eligibility and benefits electronically through Availity® at availity.com.
