We’ve established billing guidelines for our commercial, Affordable Care Act (ACA), Medicare Advantage and Federal Employee Program® (FEP) lines of business. To ensure proper, timely reimbursement, please submit claims using the guidelines in the link below. Note: Please check these guidelines often as they will be updated on a regular basis. These remain in effect until further notice. Click here for the COVID-19 Provider Billing Guidelines.

Medicare Advantage Members
- **Referrals.** We are relaxing referral requirements for all service types during this time. Please attempt to obtain a referral through your existing process. If you are unable to obtain a referral, please proceed with providing treatment. Claims will not be denied for failure to obtain a referral, but will be reviewed for medical necessity and processed according to the member’s contract benefits.
- **Out-of-Network Providers.** If a medically necessary service is not available from an in-network provider, members may seek care from an out-of-network provider and claims will process at the in-network benefit.
- **Medical Test, Office Visits and Related Services.**
  - The medical test for COVID-19 is available at no cost to our members.
  - Office visits and related services that result in an order for the COVID-19 test are at no cost to our members.
  - Testing is currently provided at no cost by state and federal health authorities.
  - If testing is provided by independent labs or physician offices, the member’s cost share for these tests only will be waived. The appropriate codes for COVID-19 testing are HCPCS codes U0001 and U0002 and CPT code 87635.
