June 2018

Implementation Delayed for Improved Concurrent Review Fax Cover Sheet for Sending Us Clinical Information

Implementation of the updated Concurrent Review pre-filled fax cover sheet and letter requesting medical records has been postponed until further notice.

We recently faxed you information announcing that starting June 28, 2018, we'd begin using our updated Concurrent Review fax cover sheet that's used for authorization requests when a member is already in a facility and treatment plans are already underway.

Please disregard the implementation date regarding the updated Concurrent Review fax cover sheet. Implementation has been postponed until further notice.

Once we establish the new implementation date, we'll send out a communication giving you the revised date.

Please pardon any inconvenience this may cause. Thank you for your patience.
