

New on Availity – Easy Updates to Place of Service for Outpatient Authorizations

Updating the place of service for outpatient authorizations is now as easy as 1, 2, 3. Last month, we enhanced the Availity^{®1} Authorization Update feature to allow you to update the place of service if an authorization is eligible to be updated. Just complete the following three steps:

1. Find the “Update” button on the Authorization/Referral Inquiry Results screen as shown in the screenshot below.
2. Select “Update” and make a selection from the drop-down box next to “Place of Service.”
3. Click on “Submit.”
