Florida Blue offers Electronic Funds Transfer (EFT) services for claim and capitation payments. EFT enables you to receive payments by direct deposit. Providers with multiple office locations can now have funds automatically routed and deposited into multiple bank accounts. EFT transactions are faster than transferring funds by check and available for all Florida Blue products.

To register for the EFT service go online to www.availity.com

EFT registration takes approximately 48 hours from the date of receipt.

**Note:** Once Electronic Funds Transfer has been set up, providers must proactively contact their financial institution to arrange for delivery of data required to successfully re-associate the EFT payment with the Electronic Remittance Advice (ERA). The minimum data required from the bank for re-association is shown in the table below:
