You'll Hear Soon from LexisNexis Risk Solutions About Your CMS Attestation

The Centers for Medicare & Medicaid Services (CMS) and the State of Florida require us to make accurate directory information available to members so they can access care. That's why we're working with LexisNexis Risk Solutions to contact our providers and confirm their directory information.

What to Expect

Starting in February, LexisNexis will send providers an email on our behalf asking for verification of their directory information in the *Verify Health Care Portal*.

Next Steps

The *Verify Health Care Portal* is a service of the American Medical Association and LexisNexis. It's a secure website where you can confirm and update your directory information easily and quickly. You can complete your CMS attestation yourself or assign it to a staff member. If your data has changed, please be sure to update it in the portal.

Please complete your attestation within two weeks of LexisNexis' request.

For More Information

The email will have contact information if you have questions about the portal or need help accessing it.

If you have questions about the requirements for CMS attestations, please call our Provider Contact Center at 800-727-2227; enter your NPI and select "Contract Inquiries."
