Disclosure Statement

The Florida Blue Medicare *HIPAA Transaction Standard Companion Guide for EDI Transactions Technical Reports, Type 3 (TR3)* provides guidelines for submitting electronic batch transactions. Because the HIPAA ASC X12-TR3s require transmitters and receivers to make certain determinations /elections (e.g., whether, or to what extent, situational data elements apply) this *Companion Guide* documents those determinations, elections, assumptions or data issues that are permitted to be specific to Florida Blue Medicare business processes when implementing the HIPAA ASC X12 5010 TR3s.

This *Companion Guide* does **not** replace or cover all segments specified in the HIPAA ASC X12 TR3s. It does not attempt to amend any of the requirements of the TR3s or impose any additional obligations on trading partners of Florida Blue Medicare that are not permitted to be imposed by the HIPAA Standards for Electronic Transactions. This *Companion Guide* provides information on Florida Blue Medicare specific codes relevant to Florida Blue Medicare business processes, rules and situations that are within the parameters of HIPAA. Readers of this *Companion Guide* should be acquainted with the HIPAA ASC X12 TR3s, their structure and content.

This *Companion Guide* provides supplemental information that exists between Florida Blue Medicare and its trading partners. Trading partners should refer to their Trading Partner Agreement for guidelines pertaining to Availity LLC, legal conditions surrounding the implementation of the EDI transactions and code sets. However, trading partners should refer to this *Companion Guide* for information on Florida Blue Medicare business rules or technical requirements regarding the implementation of HIPAA-compliant EDI transactions and code sets.

Nothing contained in this *Companion Guide* is intended to amend, revoke, contradict or otherwise alter the terms and conditions of your applicable Trading Partner Agreement. If there is an inconsistency between the terms of this *Companion Guide* and the terms of your applicable Trading Partner Agreement, the terms of the Trading Partner Agreement will govern. If there is an inconsistency between the terms of this *Companion Guide* and any terms of the TR3, the relevant TR3 will govern with respect to HIPAA edits and this *Companion Guide* will govern with respect to business edits.

1 INTRODUCTION

The Health Insurance Portability and Accountability Act (HIPAA) require that the health care industry in the United States comply with the Electronic Data Interchange (EDI) standards as established by the secretary of Health and Human Services. The ASC X12 005010X217 is the established standard for Request for Review and Response (278). The Technical Reports Type 3 (TR3s) Guides for the 278 Request for Review and Response transaction specifies in detail the required formats. It contains requirements for the use of specific segments and specific data elements within segments, and was written for all health care providers and other submitters. It is critical that your software vendor or IT staff review this document carefully and follow its requirements to send HIPAA-compliant files to Florida Blue Medicare via your vendor.

1.1 Scope

This 278 Companion Guide was created for Florida Blue Medicare trading partners to supplement the 278 TR3. It describes the data content, business rules, and characteristics of the 278 transaction.

1.2 Overview

The Technical Report Type 3 Guide (TR3) for the 278 Health Care Services Review transactions specifies in detail the required formats. It contains requirements for the use of specific segments and specific data elements within segments, and was written for all health care providers and other submitters. It is critical that your software vendor or IT staff review this document carefully and follow its requirements to send HIPAA-compliant files to Florida Blue Medicare via your vendor.

1.3 References

TR3 Guides for ASC X12 005010X217 Request for Review and Response (278) and all other HIPAA standard transactions are available electronically at wpc-edi.com

For more information, including an online demonstration, please visit availity.com or call 800-282-4548.

CAQH CORE Operating Rules Phase II caqh.org/CORE_operat_rules.php.

2 GETTING STARTED

2.1 Working with Florida Blue Medicare

Availity optimizes information exchange between multiple health care stakeholders through a single, secure network. The Availity Health Information Network encompasses administrative, financial, and clinical services, supporting both real-time and batch EDI via the web and through business to business (B2B) integration. For more information, including an online demonstration, please visit availity.com or call 800-282-4548.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

900-4666-1219

2.2 Trading Partner Registration

In order to register, you will need:

- Basic information about your practice, including your Federal Tax ID and National Provider Identifier.
- Someone with the legal authority (typically an owner or senior partner) to sign agreements for your organization.
- An office manager or other employee who can oversee the Availity implementation and maintain User IDs and access.

2.3 Certification and Testing Overview

All trading partners and clearing houses should be certified via Availity. It is recommended that the trading partner obtain HIPAA Certification from an approved testing and certification third party vendor prior to testing.

3 TESTING WITH FLORIDA BLUE MEDICARE AND AVAILITY

Florida Blue Medicare recommends that Trading Partners contact Florida Blue Medicare to obtain a testing schedule and or notify Florida Blue Medicare of potential testing opportunities prior to implementing any foreseen transaction impacts to the business flow of both Florida Blue Medicare and/or the Trading Partner.

4 CONNECTIVITY/COMMUNICATIONS WITH FLORIDA BLUE MEDICARE AND AVAILITY

4.1 Transmission Administrative Procedures

4.2 Connectivity

Connectivity methods:

- Secure File Transfer via Internet
- FTP via ISDN, Leased Lines, Frame Relay, VPN
- Firewall Mechanics
 - If you are behind a firewall, make sure that your FTPS client passes the Internet facing IP address of the server rather than the internal IP. Failure to do so usually causes the communication break when the client tries to list the files available in the server or during upload or download of files.

4.3 Re-Transmission Procedure

Encryption Method - Secure Socket Layer (SSL)

4.4 Communication Protocol Specifications

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

900-4666-1219

Protocols Used

- HTTPS/FTPS
- HTTPS and your common Internet browsers (IE, Firefox, etc.) Port 443 (default)
- FTPS: Any FTP client capable of SSL encryption
- Client examples
- Valicert ftp client
- Cute-FTP
- WS-FTP Pro
- FileZilla
- FTPS Parameters
- Port 21
- Authentication: FTP over SSL (explicit) or FTP over TLS (explicit)
- Active Mode
- File retention is 72 hours
- SSH Parameters
- Use SFTP or SCP
- Port 22
- Authentication: User ID and Password

4.5 Passwords

If a password change is necessary, please contact Availity at 800-282-4548 or availity.com.

5 CONTACT INFORMATION

5.1 EDI Customer Service

For EDI customer service related to Florida Blue Medicare, please visit availity.com or call 800-282-4548.

5.2 EDI Technical Assistance

For support of EDI transactions through Availity, please visit availity.com or call 800-282-4548.

5.3 Provider Service Number

For provider services, please contact Florida Blue at 800-727-2227. For faster service, please have your Availity transaction ID available.

5.4 Applicable websites/email

- availity.com
- floridablue.com

6 CONTROL SEGMENTS/ENVELOPES

ANSI 278 – Health Care Services Review – Request for Review and Response:

The purpose of this section is to delineate specific data requirements where multiple valid values are presented within the ANSI 278 5010 A1 TR3.

Common Definitions:

- **Interchange control header (ISA06) Interchange Sender ID (Mailbox ID)** – is individually assigned to each trading partner.
- **Interchange control header (ISA08) Interchange Receiver ID** – is the Florida Blue Medicare Tax ID, 592015694.
- **Interchange control header (ISA15) Usage Indicator** – defines whether the transaction is a test (T) or production (P).
- **Functional Group Header (GS02) Application Sender’s code** – is individually assigned to each trading partner.
- **ANSI 278 – Health Care Services Review – Request for Review and Response**

Global Information

Req #	Loop ID – Segment Description and Element Name	Reference Description	TR3Page (s)	Plan Requirement
G1	All Transactions			Florida Blue Medicare requires a Trading Partner Agreement to be on file with Availity indicating all electronic transactions the Trading Partner intends to send or receive.
G2	All Segments			Only loops, segments, and data elements valid for the 278 HIPAA-AS TR3 Guides ASC X12 005010X217 will be used for processing.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

Florida Blue Medicare Health Plan Companion Guide ANSI 278 Transaction Type

Req #	Loop ID – Segment Description and Element Name	Reference Description	TR3Page (s)	Plan Requirement
G3	<p>Acknowledgments – Florida Blue Medicare acknowledgements are created to communicate the status of transactions. It is imperative that they be retrieved on a daily basis. One file could result in multiple acknowledgements.</p> <p><u>ANSI X12:</u></p> <p>-TA1 – Interchange Acknowledgement</p> <p>-999 – Functional Acknowledgement</p>			<p>TA1 is available immediately after depositing file</p> <p>999 is available immediately after “depositing file”</p>
G4	Negative Values			Submission of any negative values in the 278 transaction will not be processed or forwarded.
G5	Date fields			All dates submitted on an incoming 278 Eligibility and Benefit Inquiry must be a valid calendar date in the appropriate format based on the respective ANSI 278 5010 A1 TR3 qualifier. Failure to do so may cause processing delays or rejection.
G6	Batch Transaction Processing			Generally, Availity and Florida Blue Medicare Gateway accept transmissions 24 hours a day, 7 days a week.
G7	Multiple Transmissions	All Segments		Any errors detected in a transaction set will result in the entire transaction set being rejected.
G8	All Transactions			Florida Blue Medicare requests to remove - (dashes) from all tax IDs, SSNs and zip codes.

Florida Blue Medicare Health Plan Companion Guide ANSI 278 Transaction Type

Req #	Loop ID – Segment Description and Element Name	Reference Description	TR3Page(s)	Plan Requirement
G9	All Transactions			Health Care Services Review – Request for Review (278) submitted with multiple patient events will be split into separate transactions and returned one at a time.
G10	All Transactions			Florida Blue Medicare requires that you do not submit any special characters in any text fields.
G11	All Transactions 2000C 2000D 2000F Additional Patient Information Paperwork	PWK		Although 278 allows for the submission of additional data in this segment, Florida Blue Medicare will not utilize the information in processing at this time.
G12	All Transactions	HI		Do not transmit the decimal point for ICD codes. The decimal point is implied.

Enveloping Information – Request for Review

Req #	Loop ID - Segment Description & Element Name	Reference Description	TR3Page(s)	Plan Requirement
E1	Interchange Control Header	ISA	<i>Appendix B (B.4)</i>	All transactions utilize delimiters from the following list: >, *, ~, ^, , { and : . Submitting delimiters not supported within this list may cause an interchange (transmission) to be rejected
E2	Interchange Control Structure	ISA	<i>Appendix B (B.2)</i>	Must submit Request for Review data using the basic character set as defined in Appendix B of the ASC X12 005010X217 TR3. In addition to the basic character set, you may choose to submit lower case characters and the special character (@) from the extended character set. Any other characters submitted from the extended character set may cause the interchange (transmission)

B35	2010F - Service Provider Provider Taxonomy Code	PRV03	290	Florida Blue Medicare requires a valid provider taxonomy code in PRV03. Standard taxonomy codes are published on the National Uniform Claim Committee website at nucc.org .

8 ACKNOWLEDGEMENTS AND/OR REPORTS

The purpose of this section is to outline the Florida Blue Medicare processes for handling the initial processing of incoming files and electronic acknowledgment generation.

TA1 Interchange Acknowledgement Transaction

All X12 file submissions are pre-screened upon receipt to determine if the interchange control header (ISA) or interchange control trailer (IEA) segments are readable. If errors are found, a TA1 response transaction will be sent to notify the trading partner that the file could not be processed provided the file contains a code value of 1 in the ISA14. No TA1 response transaction will be sent for error-free files.

Once Florida Blue Medicare determines that the file is readable, validation is performed on the ISA and IEA loop information. If these segments have a non-standard structure, the file will

900-4666-1219

receive a full file reject and the TA1 response transaction will be sent to the trading partner, provided the file contains a code value of 1 in the ISA14.

999 Functional Acknowledgement Transactions

If the file submission passes the ISA/IEA pre-screening above, it is then checked for ASC X12 syntax and HIPAA compliance errors. When the compliance check is complete, a 999 will be sent to the trading partner informing them if the file has been accepted or rejected. If multiple transaction sets (ST-SE) are sent within a functional group (GS-GE), the entire functional group (GS-GE) will be rejected when an ASC X12 or HIPAA compliance error is found.

9 TRADING PARTNER AGREEMENTS

Please contact Availity for your Trading Partner Agreement at 800-282-4548 or availity.com.

10 TRANSACTION SPECIFIC INFORMATION

10.1 ASC X12 Transactions Supported

This section describes how ASC X12N Implementation Guides (IGs) adopted under HIPAA will be detailed with the use of a table. The tables contain a row for each segment that Florida Blue Medicare has something additional, over and above, the information in the IGs. That information can:

- Limit the repeat of loops, or segments
- Limit the length of a simple data element
- Specify a sub-set of the IGs internal code listings
- Clarify the use of loops, segments, composite and simple data elements
- Any other information tied directly to a loop, segment, and composite or simple data element pertinent to trading electronically with Florida Blue Medicare.

In addition to the row for each segment, one or more additional rows are used to describe Florida Blue Medicare’s usage for composite and simple data elements and for any other information. Notes and comments should be placed at the deepest level of detail.

For example, a note about a code value should be placed on a row specifically for that code value, not in a general note about the segment. Florida Blue Medicare processes the following

ASCX12 HIPAA transactions for Request for Review and Response.

ASC X12 278 X12 005010X217	Request for Review and Response
ASC X12 TA1 v005010X231A1 (HIPAA)	Response to the X12 transactions where errors are encountered in the outer
