Disclosure Statement

The Florida Blue Medicare *HIPAA Transaction Standard Companion Guide for EDI Transactions Technical Reports, Type 3 (TR3)* provides guidelines for submitting electronic batch transactions. Because the HIPAA ASC X12-TR3s require transmitters and receivers to make certain determinations /elections (e.g., whether, or to what extent, situational data elements apply) this *Companion Guide* documents those determinations, elections, assumptions or data issues that are permitted to be specific to Florida Blue Medicare business processes when implementing the HIPAA ASC X12 5010 TR3s.

This *Companion Guide* does **not** replace or cover all segments specified in the HIPAA ASC X12 TR3s. It does not attempt to amend any of the requirements of the TR3s or impose any additional obligations on trading partners of Florida Blue Medicare that are not permitted to be imposed by the HIPAA Standards for Electronic Transactions. This *Companion Guide* provides information on Florida Blue Medicare specific codes relevant to Florida Blue Medicare business processes, rules and situations that are within the parameters of HIPAA. Readers of this *Companion Guide* should be acquainted with the HIPAA ASC X12 TR3s, their structure and content.

This *Companion Guide* provides supplemental information that exists between Florida Blue Medicare and its trading partners. Trading partners should refer to their Trading Partner Agreement for guidelines pertaining to Availity LLC, legal conditions surrounding the implementation of the EDI transactions and code sets. However, trading partners should refer to this *Companion Guide* for information on Florida Blue Medicare business rules or technical requirements regarding the implementation of HIPAA-compliant EDI transactions and code sets.

Nothing contained in this *Companion Guide* is intended to amend, revoke, contradict or otherwise alter the terms and conditions of your applicable Trading Partner Agreement. If there is an inconsistency between the terms of this *Companion Guide* and the terms of your applicable Trading Partner Agreement, the terms of the Trading Partner Agreement will govern. If there is an inconsistency between the terms of this *Companion Guide* and any terms of the TR3, the relevant TR3 will govern with respect to HIPAA edits and this *Companion Guide* will govern with respect to business edits.

1 INTRODUCTION

The Health Insurance Portability and Accountability Act (HIPAA) requires that the health care industry in the United States comply with the electronic data interchange (EDI) standards as established by the Secretary of Health and Human Services. The Technical Reports Type 3 Guides (TR3s) for the ANSI ANSI 270/271 Eligibility Benefit Inquiry and Response transaction specifies in detail the required formats. It contains requirements for the use of specific segments and specific data elements within segments and was written for all health care providers and other submitters. It is critical that your software vendor or IT staff review this document carefully and follow its requirements to send HIPAA-compliant files to Florida Blue Medicare via your vendor. The ASC X12 005010X279A1 is the established standard for Eligibility Benefit Inquiry and Response (ANSI 270/271).

1.1 Scope

This ANSI 270/271 *Companion Guide* was created for Florida Blue Medicare trading partners to supplement the ANSI 270/271 TR3. It describes the data content, Florida Blue Medicare business rules and characteristics of the ANSI 270/271 transaction.

1.2 Overview

The Technical Reports Type 3 Guides (TR3s) for the ANSI 270/271 Eligibility and Benefit Inquiry and Response transaction specifies in detail the required formats. It contains requirements for the use of specific segments and specific data elements within segments, and was written for all health care providers and other submitters. It is critical that your software vendor or IT staff review this document carefully and follow its requirements to send HIPAA-compliant files to Florida Blue Medicare via your vendor.

2 GETTING STARTED

2.1 Working with Florida Blue Medicare

Availity optimizes information exchange between multiple health care stakeholders through a single, secure network. The Availity Health Information Network encompasses administrative, financial, and clinical services, supporting both real-time and batch EDI via the web and through business to business (B2B) integration. For more information, including an online demonstration,

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

please visit availity.com or call 800-282-4548.

2.2 Trading Partner Registration

In order to register, you will need:

- Basic information about your practice, including your Federal Tax ID and National Provider Identifier.
- Someone with the legal authority (typically an owner or senior partner) to sign agreements for your organization.
- An office manager or other employee who can oversee the Availity implementation and maintain User IDs and access.

2.3 Certification and Testing Overview

All trading partners and clearing houses should be certified via Availity. It is recommended that the trading partner obtain HIPAA Certification from an approved testing and certification third party vendor prior to testing.

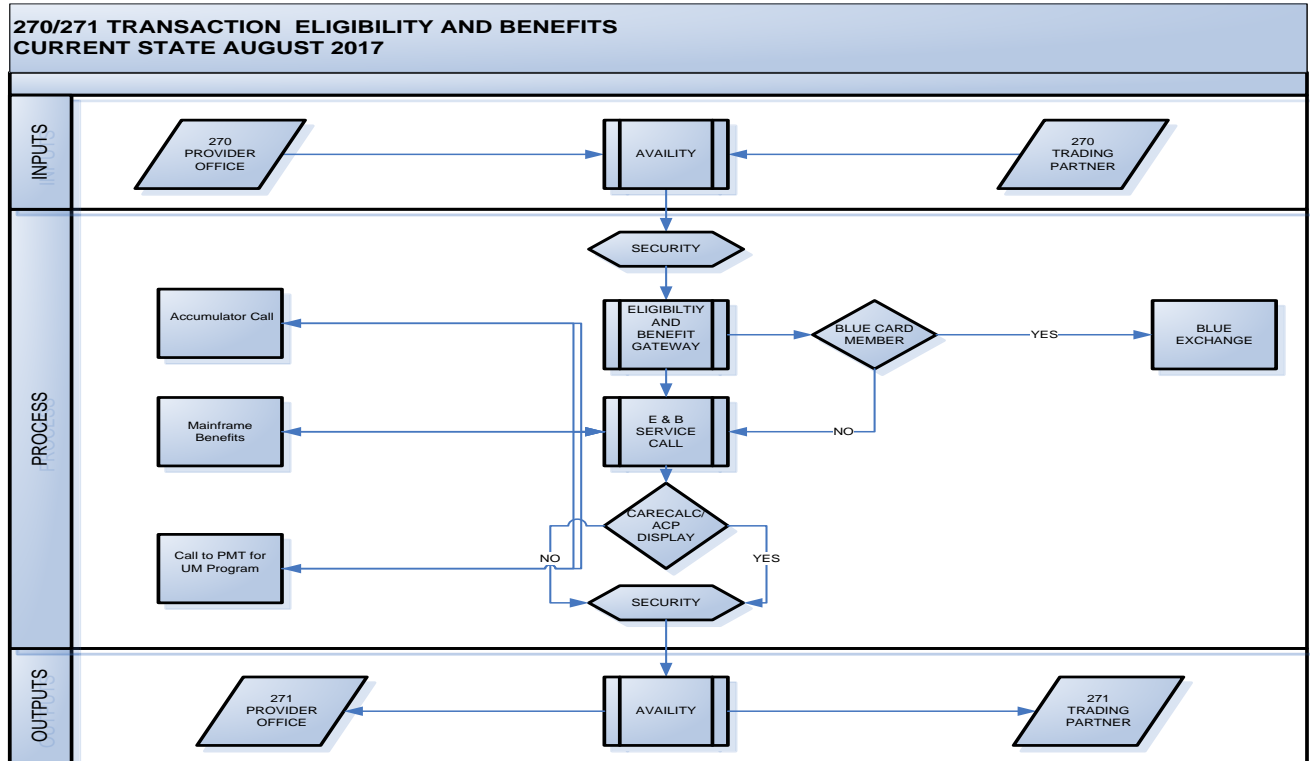

3 TESTING WITH FLORIDA BLUE MEDICARE AND AVAILITY

Florida Blue Medicare recommends that Trading Partners contact Florida Blue Medicare to obtain a testing schedule and or notify Florida Blue Medicare of potential testing opportunities prior to implementing any foreseen transaction impacts to the business flow of both Florida Blue Medicare and /or the Trading Partner.

4 CONNECTIVITY/COMMUNICATIONS WITH FLORIDA BLUE MEDICARE AND AVAILITY

4.1 Process Map

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.
Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.
All rights reserved. This document may be copied.

4.2 Transmission Administrative Procedure

Connectivity

Secure File Transfer via Internet

FTP via ISDN, Leased Lines, Frame Relay, VPN

Firewall Mechanics

If you are behind a firewall, make sure that your FTPS client passes the Internet facing IP address of the server rather than the internal IP. Failure to do so usually causes the communication break when the client tries to list the files available in the Server or during upload or download of files.

4.3 Re-Transmission Procedure

Encryption Method

Secure Socket Layer (SSL)

4.4 Communication Protocol Specifications

Protocols Used

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availability.com.

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

6 CONTROL SEGMENTS/ENVELOPES

ANSI 270/271 - Eligibility and Benefit Inquiry and Response:

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

The purpose of this section is to delineate specific data requirements where multiple valid values are presented within the ANSI 270/271 5010 A1 TR3.

Common Definitions:

- **Interchange control header (ISA06) Interchange Sender ID (Mailbox ID)** – is individually assigned to each trading partner.
- **Interchange control header (ISA08) Interchange Receiver ID** – is the Florida Blue Medicare Tax ID, 592015694.
- **Interchange control header (ISA15) Usage Indicator** – defines whether the transaction is a test (T) or production (P).
- **Functional Group Header (GS02) Application Sender’s code** – is individually assigned to each trading partner.

ANSI 270/271 - Eligibility and Benefit Inquiry and Response:

Global Information

Req #	Loop ID – Segment Description & Element Name	Reference Description	TR3Page (s)	Plan Requirement
G1	All Transactions			Florida Blue Medicare requires a Trading Partner Agreement to be on file with Availity indicating all electronic transactions the Trading Partner intends to send or receive.
G2	All Segments			Only loops, segments, and data elements valid for the 270 HIPAA-AS TR3 Guides ASC X12 005010X279A1 will be used for processing.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Florida Blue Medicare Health Plan Companion Guide ANSI 270/271 Transaction Type

Req #	Loop ID – Segment Description & Element Name	Reference Description	TR3Page (s)	Plan Requirement
G8	All Transactions			Although you may have submitted multiple patients in one 270 Inquiry, Florida Blue Medicare will send a separate 271 response for each patient.
G9	2100C Subscriber Name Qualifier Identification Code	NM108 NM109		When the MI qualifier is submitted in NM108, Florida Blue Medicare requires the submission of the ID number (#) exactly as it appears on the Florida Blue Medicare ID card without any embedded spaces, including any applicable prefix or suffix. (This includes any out of state Blue Plan ID cards.) The ID must contain a minimum of a three character prefix followed by characters for a maximum of 17 characters. Or an H followed by exactly 8 or 10 numbers. Note: For Federal Employees an R followed by exactly 8 numbers.
Req #	Loop ID – Segment Description & Element Name	Reference Description	TR3Page(s)	Plan Requirement
G10	All Transactions			ELIGIBILITY AND BENEFIT requests with multiple dependents will be split into separate transactions and returned one at a time.
G11	All Transactions			Florida Blue Medicare requires that you do not submit any special characters in any text fields.
G12	2110C Subscriber Spend Down Amount Monetary Amount	AMT	137	Although the 270 allows submission of data in this segment, this does not apply to Florida Blue Medicare products. Therefore any information submitted will not be utilized in processing the 270 request.

8 ACKNOWLEDGEMENTS AND/OR REPORTS

The purpose of this section is to outline the Florida Blue Medicare processes for handling the initial processing of incoming files and electronic acknowledgment generation.

TA1 Interchange Acknowledgement Transaction

All X12 file submissions are pre-screened upon receipt to determine if the interchange control header (ISA) or interchange control trailer (IEA) segments are readable. If errors are found, a TA1 response transaction will be sent to notify the trading partner that the file could not be processed provided the file contains a code value of 1 in the ISA14. No TA1 response transaction will be sent for error-free files.

Once Florida Blue Medicare determines that the file is readable, validation is performed on the ISA and IEA loop information. If these segments have a non-standard structure, the file will receive a full file reject and the TA1 response transaction will be sent to the trading partner, provided the file contains a code value of 1 in the ISA14.

999 Functional Acknowledgement Transactions

If the file submission passes the ISA/IEA pre-screening above, it is then checked for ASC X12 syntax and HIPAA compliance errors. When the compliance check is complete, a 999 will be sent to the trading partner informing them if the file has been accepted or rejected. If multiple transaction sets (ST-SE) are sent within a functional group (GS-GE), the entire functional group (GS-GE) will be rejected when an ASC X12 or HIPAA compliance error is found.

9 TRADING PARTNER AGREEMENTS

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.
