Disclosure Statement

The Florida Blue Medicare (Blue Cross and Blue Shield of Florida, Inc.) HIPAA Transaction Standard Companion Guide for EDI Transactions Technical Reports, Type 3 (TR3) provides guidelines for submitting electronic batch transactions. Because the HIPAA ASC X12- TR3s require transmitters and receivers to make certain determinations /elections (e.g., whether, or to what extent, situational data elements apply) this Companion Guide documents those determinations, elections, assumptions or data issues that are permitted to be specific to Florida Blue Medicare business processes when implementing the HIPAA ASC X12 5010 TR3s.

This Companion Guide does not replace or cover all segments specified in the HIPAA ASC X12 TR3s. It does not attempt to amend any of the requirements of the TR3s or impose any additional obligations on trading partners of Florida Blue Medicare that are not permitted to be imposed by the HIPAA Standards for Electronic Transactions. This Companion Guide provides information on Florida Blue Medicare specific codes relevant to Florida Blue Medicare business processes, rules and situations that are within the parameters of HIPAA. Readers of this Companion Guide should be acquainted with the HIPAA ASC X12 TR3s, their structure and content.

This Companion Guide provides supplemental information that exists between Florida Blue Medicare and its trading partners. Trading partners should refer to their trading partner agreement for guidelines pertaining to Availity®¹ LLC, legal conditions surrounding the implementation of the EDI transactions and code sets. However, trading partners should refer to this Companion Guide for information on Florida Blue Medicare business rules or technical requirements regarding the implementation of HIPAA-compliant EDI transactions and code sets.

Nothing contained in this Companion Guide is intended to amend, revoke, contradict or otherwise alter the terms and conditions of your applicable trading partner agreement. If there is an inconsistency between the terms of this Companion Guide and the terms of your applicable trading partner agreement, the terms of the trading partner agreement will govern. If there is an inconsistency between the terms of this Companion Guide and any terms of the TR3, the relevant TR3 will govern with respect to HIPAA edits and this Companion Guide will govern with respect to business edits.

1 INTRODUCTION

What is HIPAA 5010?

The Health Insurance Portability and Accountability Act (HIPAA) requires the health care industry in the United States to comply with the electronic data interchange (EDI) standards as established by the Secretary of Health and Human Services. The Technical Reports Type 3 Guides (TR3s) for the ANSI 837 I Health Care Claim Institutional transaction specifies in detail the required formats. It contains requirements for the use of specific segments and specific data elements within segments and was written for all health care providers and other submitters. It is critical that your software vendor or IT staff review this document carefully and follow its requirements to send HIPAA-compliant files to Florida Blue via your vendor. The ASC X12 005010X222A1 is the established standard for Health Care Institutional Claims (837I).

What is NPI?

The National Provider Identifier (NPI) is required wherever you identify a provider or provider organization in any standard covered HIPAA-AS electronic transaction. The NPI must be valid and it must be registered with Florida Blue Medicare.

If you are a provider or provider organization who needs to obtain an NPI, please access the National Plan and Provider Enumeration System (NPES) at [National Plan & Provider Enumeration System](#). To register your NPI with Florida Blue Medicare, please access our NPI Notification [availity.com](#).

What is a Taxonomy code, and is it required for Florida Blue Medicare?

Taxonomy codes are administrative codes that identify the provider type and area of specialization for health care providers. Each taxonomy code is a unique ten character alphanumeric code that enables providers to identify their specialty. Taxonomy codes are assigned at both the individual and organizational provider levels.

Taxonomy codes have three distinct levels: Level I is provider type, Level II is classification, and Level III is the area of specialization. A complete list of taxonomy codes can be found on the National Uniform Claim Committee website at [nucc.org](#).

Taxonomy codes are required by Florida Blue Medicare under specific circumstances. Taxonomy is one of several data elements used by Florida Blue Medicare to help determine the appropriate provider record for processing. In cases where the NPI is shared by multiple provider entities, specialties or locations, the taxonomy becomes a critical data element.

For example:

ABC Hospital, Urgent Care, Lab and Physician PA Group all share the same NPI. In this case, the taxonomy becomes critical to ensure appropriate processing and fee schedule assignment.

1.1 Scope

This 837 Companion Guide was created for Florida Blue Medicare trading partners to supplement the 837 TR3. It describes the data content, business rules, and characteristics of the 837 I

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit [availity.com](#).

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

transaction. If you submit your transactions through Availity, please also refer to the Availity EDI guide availity.com.

1.2 Overview

The Technical Report Type 3 Guide (TR3) for the 837 Health Care Institutional Claim transactions specifies in detail the required formats. It contains requirements for the use of specific segments and specific data elements within segments, and was written for all health care providers and other submitters. It is critical that your software vendor or IT staff review this document carefully and follow its requirements to send HIPAA-compliant files to Florida Blue Medicare via your vendor.

1.3 References

- TR3 Guides for ASC X12 005010X222A1 Health Care Institutional Claim (837I) and all other HIPAA standard transactions are available electronically at the Washington Publishing website wpc-edi.com.

2 GETTING STARTED

2.1 Working with Florida Blue Medicare

Availity optimizes information exchange between multiple health care stakeholders through a single, secure network. The Availity Health Information Network encompasses administrative, financial, and clinical services, supporting both real-time and batch EDI via the web and through business to business (B2B) integration. For more information, including an online demonstration, please visit availity.com or call 800-282-4548.

2.2 Trading Partner Registration

In order to register, you will need:

Basic information about your practice, including your Federal Tax ID and National Provider Identifier.

Someone with the legal authority (typically an owner or senior partner) to sign agreements for your organization.

An office manager or other employee who can oversee the Availity implementation and maintain User IDs and access.

2.3 Certification and Testing Overview

All trading partners and clearing houses should be certified via Availity. It is recommended that the trading partner obtain HIPAA certification from an approved testing and certification third party

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

Florida Blue Medicare Health Plan Companion Guide ANSI 837I Health Care Claim Institutional Transaction Type

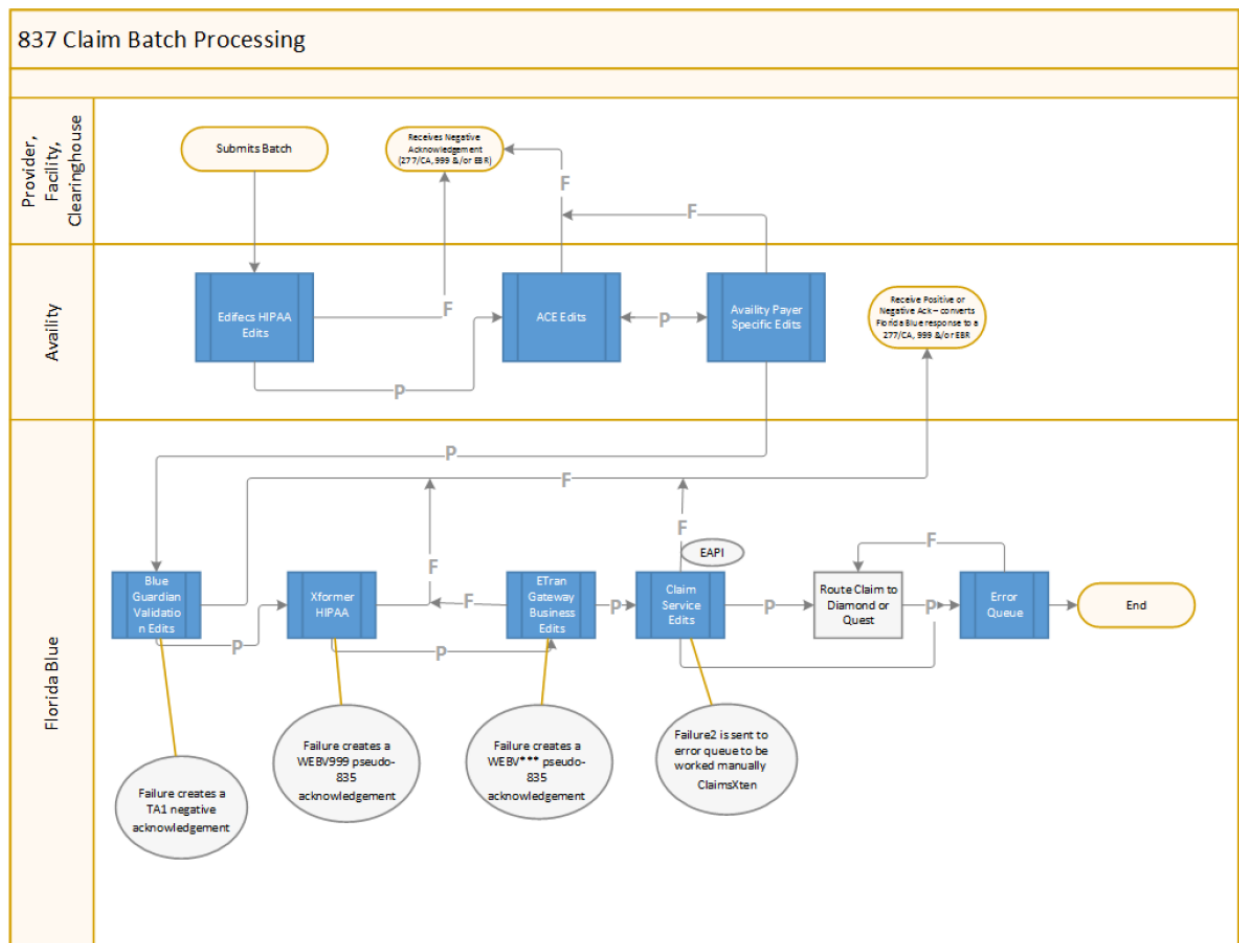

vendor prior to testing.

3 TESTING WITH FLORIDA BLUE MEDICARE AND AVAILITY

Florida Blue Medicare recommends that trading partners contact Florida Blue Medicare to obtain a testing schedule and or notify Florida Blue Medicare of potential testing opportunities prior to implementing any foreseen transaction impacts to the business flow of both Florida Blue Medicare and/or the trading partner.

4 CONNECTIVITY/COMMUNICATIONS WITH FLORIDA BLUE MEDICARE AND AVAILITY

4.1 Process Map

4.2 Transmission Administrative Procedure

- Secure File Transfer via Internet
- FTP via ISDN, Leased Lines, Frame Relay, VPN

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

Firewall Mechanics

If you are behind a firewall, make sure that your FTPS client passes the Internet facing IP address of the server rather than the internal IP. Failure to do so usually causes the communication break when the client tries to list the files available in the server or during upload or download of files.

4.3 Re-Transmission Procedure

Encryption Method – Secure Socket Layer (SSL)

4.4 Communication Protocol Specifications

Protocols Used

- HTTPS/FTPS
- HTTPS and your common Internet browsers (IE, Firefox, etc.) Port 443 (default)
- FTPS: Any FTP client capable of SSL encryption

Client examples are:

- Valicert ftp client
- Cute-FTP
- WS-FTP Pro
- FileZilla
- Others

Test and Production URL securefile.BCBSF.com

FTPS Parameters

- Port 21
- Authentication: FTP over SSL (explicit) or FTP over TLS (explicit)
- Active Mode
- File retention is 72 hours

SSH Parameters

- Use SFTP or SCP
- Port 22
- Authentication: User ID and password

4.5 Passwords

If a password change is necessary, please contact Availity at 800-282-4548 or [availity.com](https://www.availity.com).

5 CONTACT INFORMATION

5.1 EDI Customer Service

For EDI customer service related to Florida Blue Medicare , please visit [availity.com](https://www.availity.com) or call 800-282-4548.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit [availity.com](https://www.availity.com).

5.2 EDI Technical Assistance

For support of EDI transactions through Availity, please visit availity.com or call 800-282-4548.

5.3 Provider Service Number

For provider services, please contact Florida Blue Medicare at 800 727 2227. For faster service, please have your Availity transaction ID available.

5.4 Applicable websites/e-mail

- Availity.com
- FloridaBlue.com

6 CONTROL SEGMENTS/ENVELOPES

837 I - Health Care Institutional Claim

The purpose of this section is to delineate specific data requirements where multiple valid values are presented within the 5010 TR3.

- **Interchange control header (ISA06) Interchange Sender ID (Mailbox ID)** – is individually assigned to each trading partner.
- **Interchange control header (ISA08) Interchange Receiver** – If submitting directly to FL Blue is the Florida Blue Medicare Tax ID, 592015694. If submitting through Availity, 030240928 (+6 spaces). **Reference the Availity EDI guide at availity.com.**
- **Interchange control header (ISA15) Usage Indicator** – defines whether the transaction is a test (T) or production (P).
- **Functional Group Header (GS02) Application Sender's code** – is individually assigned to each trading partner.

Global Information

Req #	Loop ID – Segment Description & Element Name	TR3 Data Element	TR3 Page(s)	Plan Requirement
G1	All Transactions for Availity Users only			Florida Blue Medicare requires a trading partner Agreement to be on file with Availity indicating all electronic transactions the trading partner intends to send or receive.
G2	All Segments			Only loops, segments, and data elements valid for the 837 HIPAA-AS TR3 Guides ASC X12 005010X223A2 will be used for processing.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Institutional Transaction Type

Req #	Loop ID – Segment Description & Element Name	TR3 Data Element	TR3 Page(s)	Plan Requirement
B1	1000A – Submitter Primary Identification Number Submitter Identifier	NM109	72	Florida Blue Medicare requires the submission of the Florida Blue Medicare assigned Sender Code in this data element.
B2	1000A – Submitter EDI Contact Information Submitter Contact Name	PER 02	74	Required when the contact name is different than the name contained in the Submitter Name segment of this loop and it is the first iteration of the Submitter EDI Contact Information (PER) Segment.
B3	1000B – Receiver Name Last Name or Organization Name	NM103	77	FBM The above value is required in this field.
B4	1000B – Receiver Name Receiver Primary Identification Number	NM109	77	831056418 The above value is required in this field.
B5	2000A – Billing Provider Specialty Information	PVR03	80	Taxonomy codes are required by Florida Blue Medicare under specific circumstances. Taxonomy is one of several data elements used by Florida Blue Medicare to help determine the appropriate provider record for processing. In cases where the NPI is shared by multiple provider entities, specialties or locations, the taxonomy becomes a critical data element. For example: ABC Hospital, Urgent Care, Lab and Physician PA group all share the same NPI. In this case, the taxonomy becomes critical to ensure appropriate processing and fee schedule assignment. Taxonomy codes and descriptors are located at nucc.org .
B6	2000C – Patient Hierarchical Level	PAT01	133	Florida Blue Medicare does not accept ANSI 837 I transactions which have the PAT01 segment equal to 39 (organ donor). Organ donor claims should be submitted on a UB04 with the appropriate supporting documentation.
B7	2010AA – Billing Provider Postal Code	N4	88	Florida Blue Medicare requires submission of a valid nine digit postal zip code.
B8	2010AA – Billing Provider NPI Reference Identification Code	NM109	90	Florida Blue Medicare requires the billing providers NPI. Invalid or missing NPI will result in claims being returned as a provider correctable error. These must be corrected and resubmitted electronically.
B9	2010AA – Billing Provider Contact Name Billing Provider Contact Name	PER02	92	Required in the first iteration of the billing provider Contact Information Segment.
B10	2010AB – Pay to Provider Postal Code	N4	98	Florida Blue Medicare requires submission of a valid nine digit postal zip code.

Helpful Tips: How to Avoid Provider Identification Errors for Claims involving National Provider Identifier (NPI) and Tax ID number.

Below are reminders to help you reduce the number of WEBV040 and WEBV042 claims errors displayed when claim data (or information) does not match information registered with Florida Blue Medicare.

Billing Provider Section

This section is used to provide information regarding the billing provider for services rendered. It should match the name written on the check or electronic funds transfer from Florida Blue Medicare.

- i. **OPTION 1:** If you are registered as a group provider (PA, LLC, etc.) with Florida Blue Medicare and you want to bill as a group provider, enter the appropriate group name, Tax ID number and the group NPI (type 2).
 1. **THE MATCH:** Group Name matches Group NPI matches Group Tax ID
- ii. **OPTION 2:** If you are registered as an individual provider with Florida Blue Medicare and you are billing as an individual provider, please enter your name, Social Security Number and your individual NPI (type 1).

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availability.com.

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

1. **THE MATCH:** Individual Name matches Individual NPI matches Individual Social Security Number

Rendering Provider Section

This section is used to provide information regarding who performed the services. It is the provider who actually sees the patient.

- iii. **OPTION 1:** If you billed as an organization (PA, LLC, etc.) list the name of the rendering individual provider and the rendering individual NPI.
- iv. **OPTION 2:** If you billed as an individual, do not list a rendering provider. This would be redundant as the billing individual would be the same as the **rendering** individual. Submitting redundant information can cause a different provider correctable error.

Below is an example to assist you in understanding the appropriate entry of billing and rendering provider information to reduce the number of returned claims. Additional HIPAA 5010 reference information can be found on our website at www.floridablue.com under the Provider tab and by selecting Get Ready for 5010.

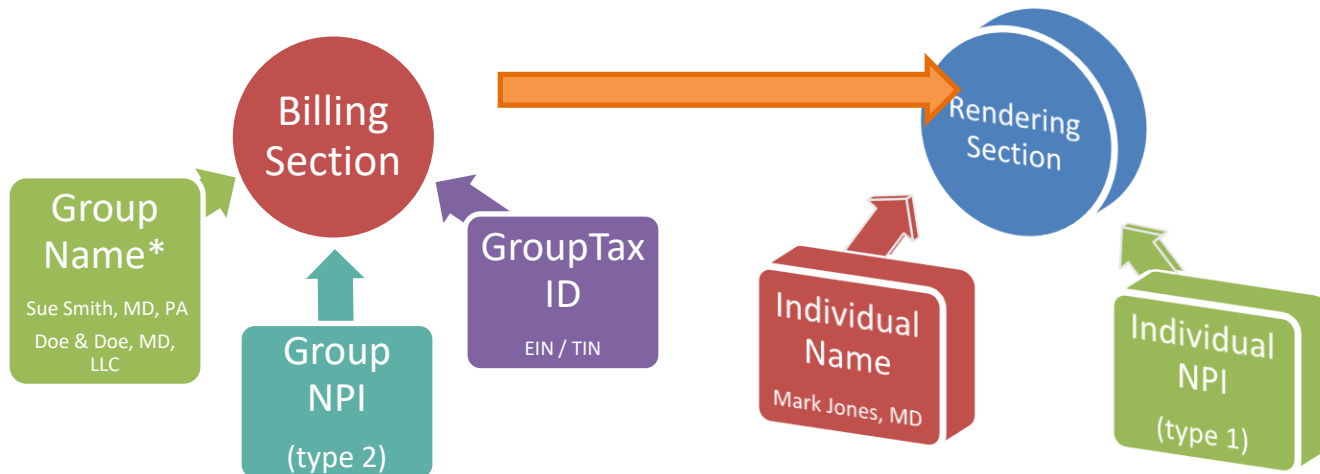

A. Billing as a Group Provider – OPTION 1

If you are billing as a group provider, (PA, LLC, etc.), the NPI must be the Group NPI (type 2) along with the appropriate Tax ID number for the group.

Please note that the Billing Section is for the entity BILLING for the services. The Rendering Provider Section is for the provider who PERFORMED the services.

Correct Entry (THE MATCH):

This example shows how the information submitted matches data registered with Florida Blue Medicare. The Group Name matches Group NPI which matches Group Tax ID number and all match Florida Blue Medicare provider files.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availability.com.

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

Incorrect Entries (THE MISMATCH):

Below are examples of information that will result in a mismatch of data causing a WEBV040 provider correctable error ultimately resulting in a delay in payment. The mismatch is highlighted in red.

Remember: Group Name = Group NPI = Group Tax ID Number

To confirm how you are registered with Florida Blue Medicare, please call the Provider Contact Center at (800) 727-2227, select option 5, and then option 2. If you would like to register a different Tax ID number, please complete the Provider Information Update Form available on availability.com (sections 1 and 6.). A completed IRS confirmation letter must be included.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availability.com.

Blue Cross and Blue Shield of Florida, Inc., is an Independent Licensee of the Blue Cross and Blue Shield Association.

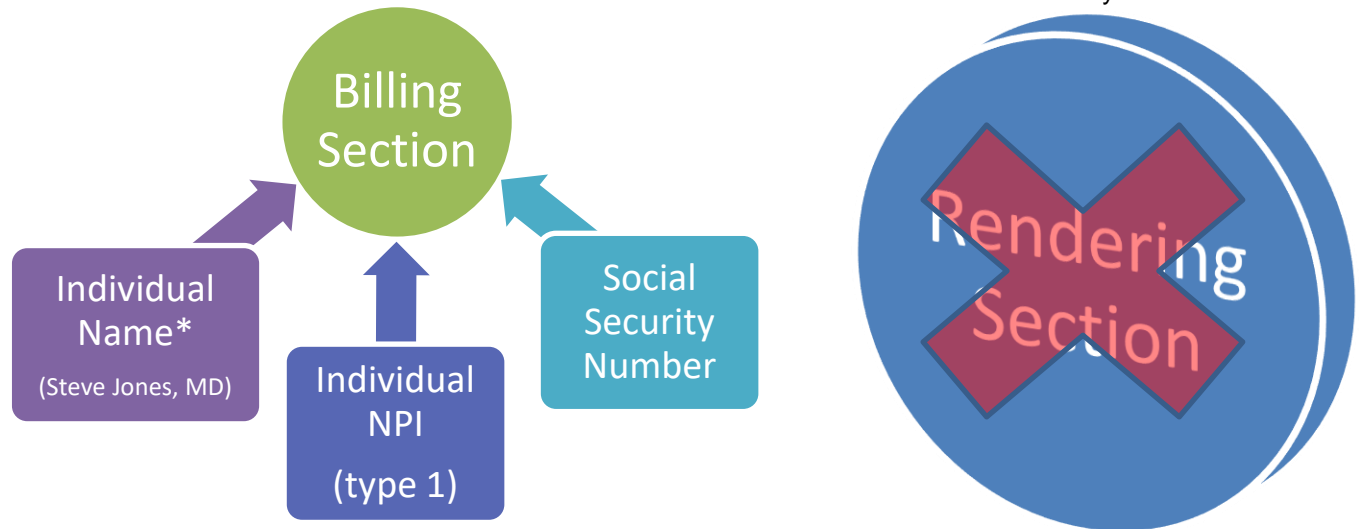

All rights reserved. This document may be copied.

Billing as an Individual Provider – OPTION 2

If you are billing as an individual provider, the NPI must be the individual NPI (type 1) along with the appropriate Social Security Number. Do not enter a provider at all in the rendering section when the billing and rendering provider is the same person. Submitting redundant information can cause a different provider correctable error.

Correct Entry (THE MATCH):

This example shows how the information entered matches data registered with Florida Blue Medicare. Individual Name matches Individual NPI matches Individual Social Security Number.

Incorrect Entries (THE MISMATCH):

Below are examples of information entered that will result in a mismatch of data causing a delay in payment. The mismatch is highlighted in red.

REMEMBER: Individual Name = Individual NPI = Individual Social Security Number

To confirm how you are registered with Florida Blue Medicare, please call the Provider Contact Center at (800) 727-2227, select option 5, and then option 2. If you would like to register a

different Tax ID number, please complete the Provider Information Update Form available on availity.com (sections 1 and 6.). A completed IRS confirmation letter must be included.

Tips for Sending Coordination of Benefits Information on Electronic Claims

837 Institutional Health Care Claims

When Florida Blue Medicare is the secondary carrier, file the claim to Florida Blue Medicare on the member's behalf only **after the primary insurance has completed processing**. When Florida Blue Medicare shows another health plan is primary and there is no primary carrier payment or denial information, the claim will be returned for correction. **EXCEPTIONS:** Claims submitted with a GY modifier where Medicare would normally be primary, claims from VA/DOD facilities, Medicare Crossover claims.

When Florida Blue Medicare files show another health plan is primary, that information is provided on the 271 Eligibility and Benefits query response. When the primary plan is NOT Florida Blue Medicare, the following loops and segments will be required:

NOTE: When the charges, payment amount, deductible, coinsurance, co-pay or adjustment is zero, the AMT or CAS segment must still be submitted. Indicate the zero amounts as 0.

R =Required S=Situational	837 Fields	Business Requirement
S	2000B SBR01	Value cannot = P (Primary Payer)
R	Total Claim Charge Amount	Loop 2300 CLM02 - Must balance to the sum of all service line charge amounts reported in Loop 2400 SV203.
R	Claim Payment Amount	When Florida Blue Medicare is secondary, submit the primary insurer payment information to support correct processing of COB information. 2320 AMT01 = D; REQUIRED 2320 AMT02 – Sum of all Line level Payment Amount minus any Claim Level Adjustment amounts must balance to Claim level Payment Amount.
R	Patient Responsibility	Loop 2300 HI01-1 = BE, HI01-2 = Value Code (A1- Deductible, A2 – Coinsurance and A7 – Copay) and HI01-5 = Amount*Note: The first value code will be reported as HI01; the second will be HI02 and will continue up to 12 value codes.
R	HEALTH CARE SERVICE LOCATION INFORMATION	When the institutional claim is for inpatient services (loop 2300, CLM05-1=11), the number of covered days is required and is calculated starting from the admit date to the day before discharge. In Loop 2300 use the following HI segment configuration: HI01-1 = BE, HI01-2 = 80, HI01-5= number of days.
S	Inpatient Adjudication Information	Required when Inpatient adjudication Information is reported in the remittance advice, or used to report Medicare Remittance Remarks Codes. Refer to TR3, pages 391-397 for details.
S	Outpatient Adjudication Information	Required when Outpatient adjudication Information is reported in the remittance advice. Or Used to submit Medicare Remittance Remarks Codes. Refer to TR3, pages 398-401 for details.

8 ACKNOWLEDGEMENTS AND/OR REPORTS

TA1 Interchange Acknowledgement Transaction

All X12 file submissions are pre-screened upon receipt to determine if the interchange control header (ISA) or interchange control trailer (IEA) segments are readable. If errors are found, a TA1 response transaction will be sent to notify the trading partner that the file could not be processed provided the file contains a code value of 1 in the ISA14. No TA1 response transaction will be sent for error-free files.

Once Florida Blue Medicare determines that the file is readable, validation is performed on the ISA and IEA loop information. If these segments have a non-standard structure, the file will receive a full file reject and the TA1 response transaction will be sent to the trading partner, provided the file contains a code value of 1 in the ISA14.

999 Functional Acknowledgement Transactions

If the file submission passes the ISA/IEA pre-screening above, it is then checked for ASC X12 syntax and HIPAA compliance errors. When the compliance check is complete, a 999 will be sent to the trading partner informing them if the file has been accepted or rejected. If multiple transaction sets (ST-SE) are sent within a functional group (GS-GE), the entire functional group (GS-GE) will be rejected when an ASC X12 or HIPAA compliance error is found.

9 TRADING PARTNER AGREEMENTS

Please contact Availity for your Trading partner Agreement at 800-282-4548 or availity.com.

10 TRANSACTION SPECIFIC INFORMATION

10.1 ASC X12 Transactions Supported
