

Provider Link™ Enhancement Now You Can Print Member Snapshot Information

The newest release of Provider Link (the official name of the Florida Blue Medicare provider platform where you can manage your Florida Blue Medicare Advantage patients) has been updated to include the following enhancement:

Ability to Print Member Snapshot Information

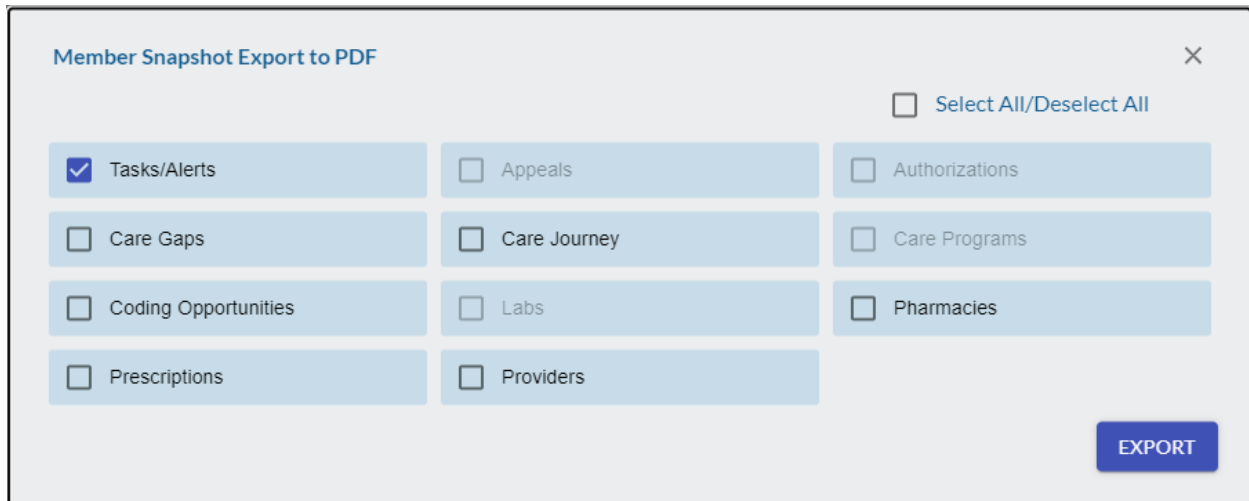

A few months ago, new informational tiles were added to the Member Snapshot page. To further extend the functionality and value of this page, we have added the ability to print information contained in any of the tiles with data (areas not grayed out). The document will be printed in the standard PDF format.

There are two ways to do this: by clicking on the **1** Adobe PDF icon next to the member ID or by choosing the **2** export option from the kebab menu on the right side of the screen.

Member Snapshot Print Options

The standard Provider Link filter window will then appear, with the information from the currently selected tile chosen by default.

Any of the other tiles containing patient information will be displayed as options, allowing you to print all the available member information to a single document.
