Federal Employee Program Member Outreach to Encourage Breast and Cervical Cancer Screening

Over 16,000 Blue Cross and Blue Shield Federal Employee Plan[®] (FEP) members who are due for breast and/or cervical cancer screening will receive our [postcard](#) this month to remind them of the importance of completing their screening.

If you receive questions from your FEP patients about this outreach, or you see them for their annual wellness or other visit, please encourage your patients to stay current with this important screening for breast and cervical cancer. Remind them it could help save their life – that regular testing allows for finding certain cancers early when they are easier to treat and could help prevent further growth.

FEP patients may look in their Blue Cross and Blue Shield Service Benefit Plan brochure for more information about screening. They may also contact our Customer Service team for assistance, Monday through Thursday, 8 a.m. to 6 p.m., and Friday, 9 a.m. to 6 p.m. ET at 800-333-2227.
