## **Federal Employee Program Member Outreach to Encourage Breast and Cervical Cancer Screenings**

Blue Cross and Blue Shield Federal Employee Plan<sup>®</sup> (FEP) members who are due for breast and/or cervical cancer screening will receive our [postcard](#) in early November to remind them of the importance of completing their screening. This is our second FEP member breast/cervical cancer screening mailing this year.

If you receive questions from your FEP patients about this outreach, or you see them for their annual wellness or other visit, please encourage your patients to stay current with these important screenings for breast and cervical cancer. Remind them it could help save their life – that regular testing allows for finding certain cancers early when they are easier to treat and may even help prevent further growth.

FEP patients may look in their Blue Cross and Blue Shield Service Benefit Plan brochure for more information about screening. They may also contact our Customer Service team for assistance, Monday through Thursday, 8 a.m. to 6 p.m., and Friday, 9 a.m. to 6 p.m. ET at 800-333-2227.
