Federal Employee Program Annual Well Woman Exam Member Outreach

Over 18,000 Blue Cross and Blue Shield Federal Employee Plan[®] (FEP) members will receive our [letter](#) to remind them of the importance of completing their annual Well Woman checkup including completing breast and cervical cancer screenings.

If you receive questions from your FEP patients about this outreach, or you see them for their annual wellness or other visit, please encourage them to stay current with these important screenings for breast and cervical cancer. Remind them it could help save their life – that regular testing allows for finding certain cancers early when they are easier to treat and could help prevent further growth.

FEP patients should refer to their Blue Cross and Blue Shield Service Benefit Plan brochure for more information about screening. They may also contact our Customer Service team for assistance, Monday through Thursday, 8 a.m. to 6 p.m., and Friday, 9 a.m. to 6 p.m. ET at 800-333-2227.
