Get Paid Faster with Electronic Funds Transfer

We know you are already managing a lot with limited resources. So, why not take something else off your plate so you and your staff can devote more time to your patients? Electronic funds transfer (EFT) saves practices time, increases productivity and helps you get paid faster. It's also environmentally friendly.

With EFT, we will deposit your claims payments directly into the bank account of your choice, saving you or your office staff a trip to the bank to deposit paper checks.

Benefits of EFT:

- Provides same-day access to funds
- Reduces opportunities for theft
- Lowers administrative costs
- Avoids bank runs and lines
- Avoids address changes for paper check mailings

About 75 percent of our claims payments are already sent to providers or groups electronically. EFT is safe and secure and eliminates the time waiting for payments. To enroll, log in to *availity.com* and follow these prompts> *My Providers> Enrollments Center> EFT Enrollment.*

If you are receiving paper checks, we encourage you to make the switch today. EFT is our preferred method of payment. For more information, call Availity^{®1} at 800-282-4548.

¹Availity, LLC is a multi-payer joint venture company. For more information or to register, visit Availity's website at availity.com.
