## HEDIS Attestations Name Change Effective July 17, 2017

Based on input from our providers, we are pleased to announce that we are changing the name of HEDIS Attestations to **HEDIS Clinical Quality Validation**. This updated name more accurately reflects the purpose of the process, which is to receive validation of the quality of care you provide to our members.

You will see the new name in use when you go to the **Clinical Quality Validation portal** in Availity<sup>®1</sup>, Payer Spaces (formerly the HEDIS Attestation portal). See the screen shot below.

Legend: **NEW** PENDING SUBMITTED

| PATIENT NAME | PATIENT DOB | PROVIDER NAME | PRODUCT |
|--------------|-------------|---------------|---------|
|--------------|-------------|---------------|---------|

The Clinical Quality Validation is an easy-to-navigate web-based form that provides physicians with pre-populated care gaps identified from claims data relating to care and/or quality measures. The validation documents the assessment and care provided by the provider and validates that the information provided is true, accurate and complete.

Clinical Quality Validation is an important part of the Florida Blue Health Care Quality program. We depend on you, our providers, to furnish the patient care information required for HEDIS reporting that is mandated for accreditation and regulatory compliance.

Thank you for your valued input and the ongoing quality care you provide our members.
