

Medical/Specialty Pharmacy (Rx) Drugs Requiring Prior Auth
July 2022

Florida Blue requires prior authorization for a wide range of drug services when being processed through the Medical benefit through various Utilization Management (UM) Programs and/or when prior auth required for the Member's product.

For the products and UM Programs that require prior authorization for the listed drugs, a separate review is NOT required for the administration/ supportive services unless separately identified.

Example 1: Oncology drug, Yervoy (J9228) requires prior auth listed below which the corresponding administration CPT code, 96413, would be identified as a supportive service that would not need to be separately reviewed .

Example 2: Eye injection, Lucentis (J2778) requires prior auth listed below which the corresponding administration CPT code, 67028, would be identified as a supportive service that would not need to be separately reviewed.

Requesting Prior Authorization for Medical/Specialty Pharmacy (Rx) Drugs

Medical/ Specialty Pharmacy (Rx) drug prior authorization requests are handled through different Florida Blue/ Vendor entities based upon various circumstances. This section will provide guidance with identifying where the drug review must be submitted when processed through the member's Medical benefit.

The following information will need to be determined in order to identify the Florida Blue/ Vendor Entity that will perform the review (Prior Authorization/ VPSS) for the Medical/ Specialty Pharmacy (Rx) Drugs:

- Specific Drug
- Place of Service
- Rendering Entity (Entity Billing Drug)
- Member Product Type (Listed below)
- Rendering Entity Participation Status

| <u>Member Product Type</u> | <u>Entity Billing Drug</u> | <u>Where to Submit Medical/Specialty Rx Review</u> |
|-----------------------------------|--|---|
| FEP | FL Physician and FL Outpatient Facilities | Advanced Benefit Determination is available for select services; see our Voluntary Predetermination for Select Services in the Utilization Management section. |
| FEP/SAO | Drugs ordered through Pharmacy Provider ('just in time'/drug replacement') | Prior approval required for certain medications. Refer to Caremark (Pharmacy Benefit Manager for FEP & SAO) for a current Rx drug prior approval list. |
| All** | Drugs included in PADP Drug list (identified 'x' within PADP column) not ordered through Caremark, Prime Specialty Pharmacy, or CareCentrix | Magellan Rx Management's provider self-service at http://ih.magellanrx.com and click on the physician tab. and click on the physician tab. Phone# (800) 424-4947. |
| All | Drugs not included PADP Drug list and not ordered through Caremark, Prime Specialty Pharmacy, or CareCentrix | Submit authorization requests electronically through Availity or contact Florida Blue using Blue Express, our automated phone system. |
| All | Home Health, Home Infusion*, or Ambulatory Infusion Suite (AIS) participating within CareCentrix (CCX) Network | Review coordinated with CareCentrix (CCX) Phone# (877)561-9910 Fax#(877)627-6688 |

| | | |
|--------------------------------|---|--|
| All | Caremark Specialty Pharmacy* | Caremark Specialty Pharmacy Services All Products Phone: (866) 278-5108 Fax: (800) 323-2445 |
| Part D (Med Adv) | Retail Pharmacy/ Infusion Pharmacy (Home Setting) | Prime Therapeutics LLC Phone: (800) 926-6565 Fax: (800) 693-6703 |
| ***FB PBM (U65 plans) | Drugs identified as 'Self-Administered' that are not ordered through Caremark | Prime Therapeutics LLC Phone: (877) 627-6337 Fax (877) 828-3939 |

* Refer to the Remote Provider section of the Provider Manual for drug supplier billing guidelines to determine if "Local Plan" would be identified as Florida Blue

**Includes: BlueOptions, BlueChoice, BlueSelect, BlueCare, My Blue, SimplyBlue, State Account Employees, Traditional, Miami-Dade Blue, and Go Blue.

***FB PBM - excludes State Account Employees, FEP (Federal Employee Program), and all non-standard plans with pharmacy benefit carved out.

Identifying Product/ Plans that Require Prior Authorization

Member's products and coverage vary based upon the policy type and benefits. All services must meet the definition of medical necessity as outlined in the Member's benefit contract. Select benefit types enforce prior authorization to ensure the services align with the medical necessity criteria before the services are rendered, while other benefits verify the medical necessity criteria through post-service or concurrent review.

For products that require a prior authorization, failure to obtain an authorization prior to the service being rendered may result in the services (and supportive services) being denied which will apply the financial liability to the member/ provider depending upon the contract arrangements.

Below are the standard product types that require a prior authorization for the Medical/Specialty Pharmacy (Rx) Drugs:

- BlueCare HMO
- My Blue*
- Medicare Advantage HMO*
- BlueSelect (Group & Individual plans)
- BlueOptions ACA Plans (Group & Individual plans)
- Medicare Advantage PPO
- BlueChoice Group ACA Plans (effective 4/1/2016)
- SimplyBlue Group

* Prior Authorization required in addition to referral when applicable

NOTE: Products that do not require prior authorization for the listed drugs are eligible for a Voluntary Predetermination of Select Services.

Medical/ Specialty Pharmacy (Rx) Drug List Requiring Prior Auth

The following Medical/Specialty Pharmacy (Rx) Drug List does **NOT** identify the following:

- Medical/ Specialty Pharmacy (Rx) Drugs Listed do **NOT** guarantee coverage is available through the member's medical benefit. It is important Eligibility and Benefits (E&B) is verified prior to providing services to determine if the member's product has coverage.

→ Medical/ Specialty Pharmacy (Rx) Drug List does **NOT** identify Prior Authorization requirements for drugs processed and covered through the Member's Pharmacy Benefit (PBM).

→ Medical/ Specialty Pharmacy (Rx) Drug List should **NOT** be used as reference for BlueCard Out-of-Area members. NOTE - Contact BlueCard Eligibility for Out-of-Area members benefits and Utilization Management Questions #(800)676-2583

The following Medical/Specialty Pharmacy (Rx) Drug List **does** identify the following:

→ Drugs services that require prior authorization based upon the Member's product type which will verify the services are medically necessary prior to the services be administered.

→ The drugs which have an 'x' in the 'PADP' column below are drugs that are included in the Provider Administered Drug Program(PADP), which are reviewed by Magellan Rx Management (formerly ICORE). Refer to the PADP (Provider Administered Drug Program) section of the Provider Manual**

→ The drug HCPCS/CPT code(s), Drug Brand Name & Drug Generic Name that requires prior authorization. Drugs newly FDA approved would require prior authorization based upon the Unclassified HCPCS/CPT codes listed below. List updates (excluding newly FDA approved drugs) are added or removed twice a year (Jan & July). NOTE - This does not identify any changes to the member's product & benefits.

Newly Added Drug or Newly FDA Approved Drug

New HCPCS/CPT code assigned - drug was previously included

New Drug Added to PADP (MRxM Managed)

Drug no longer Requiring Prior Auth (Removed Date based on service date)

* new drugs approved by FDA may **not** be listed but could be subject to prior authorization

** self-administered drug coverage has limited benefits through the medical benefit

*** Covered as Self-Administered or Provider-Administered Specialty drugs

NOTES -

- 1 Drugs listed may not be covered by the member's benefits. Benefits vary by plan, so benefits need to be verified prior to providing services.
- 2 Based on new codes being assigned to drug(s), search by HCPCS or CPT code and/or Drug Brand Name
