

Coming Soon...

All Your Florida Blue Medicare Advantage Patient Insights In New Platform Under One Provider Portal!

To deliver a robust and distinct collection of insights about your Florida Blue Medicare Advantage patients, we're creating a new platform to display this information. You'll soon have one provider portal with two platforms (commercial and Medicare Advantage) to manage your patient populations.

Currently, you use ProviderVista to manage both your Florida Blue commercial and Medicare Advantage patients. We believe we can improve your experience by displaying your Medicare Advantage patients on a different platform.

Starting October 1, 2019, your Medicare Advantage patient information will be in this new Florida Blue Medicare provider platform. You'll receive notifications with suggestions for prioritizing certain tasks to assist you in your decision-making process. This is a unique feature not found in any of our previous platforms. By managing these prioritized recommendations, we hope to help you achieve your value-based care goals.

How to Access the Provider Portal

Accessing the two platforms is easy. Once inside the provider portal, you'll choose between the commercial (ProviderVista) and Medicare Advantage platforms to view patient information. You will also be able to easily move between both platforms.

Additionally, the new Florida Blue Medicare provider platform will provide you with all the same capabilities you enjoy now and more, including:

- Find your Florida Blue Medicare Advantage patient roster.
- Have a comprehensive view of your patients' clinical insights.
- Search and filter your populations in various ways to view and export only the information you need.
- Identify and prioritize select care and coding opportunities.

Note: Features and capabilities will continue to be added and enhanced.

We Want to Hear from You

As we roll out the new Florida Blue Medicare provider platform, we'd like to hear from you. Share your ideas on how we can improve your experience with us at mymedicareadvocate@floridablue.com.

Be on the lookout for training opportunities coming soon.
