

We're Having a Freeze!
Availity Provider Data Management Capabilities Unavailable
June 24-July 12

Florida doesn't have too many freezes so when we do have one, it's a big deal. That's why we're giving you advance notice of an upcoming freeze to access, verify, manage or update provider data in Availity®¹ while we undergo an internal system conversion.

What this Means to You

From June 24 through July 12, we'll be unable to accept updates or make changes to your profile in provider data management capabilities in availity.com. We're giving you advance notice of this freeze so you can plan accordingly and submit all critical updates as soon as possible.

The good news is the freeze is short term. The thaw begins July 13, when we're back to normal operations.
