
Remember to Use In-Network Specialty Pharmacies

Complex, chronic illness is on the rise, creating more demand for the long-term specialty medicines for treatment. Specialty medications are high-cost injectable, infused, oral or inhaled medications. They can be self-administered and/or administered by providers.

To help you meet the needs of your patients who take specialty medicines, we provide two specialty pharmacies, *AllianceRx Walgreens Prime* and *CVS SpecialtyTM*. Both pharmacies are committed to delivering services that can help save you time and assist with any pharmacy benefit information you may need about your patients.

Benefits of Using Our In-Network Specialty Pharmacies

AllianceRx Walgreens Prime and CVS Specialty are our preferred *in-network specialty pharmacies*. Remember to use our in-network specialty pharmacies to keep out-of-pocket costs as low as possible for your Florida Blue patients who use specialty medicines. Both pharmacies can:

- Fill specialty prescriptions and deliver them to your office or patient's home
- Help you understand the benefits of the drugs and the conditions they treat
- Verify patient benefits and coordinate preauthorization if required
- Counsel your patients on the importance of medication adherence and refills
- Notify your office of any important developments you need to know.

Getting Started is Easy!

- Complete and fax a specialty drug enrollment form to AllianceRx Walgreens Prime or CVS Specialty at the fax number on the form.
- You can find the forms on our [website](#); select Providers (top of the page), Tools & Resources, and then [Forms](#).
- Fax the prescription for the specialty medicine along with a completed enrollment form and copy of the member's ID card.

Helpful Tips

- Send prescriptions to **only** one pharmacy.
- If you use CoverMyMeds, be sure to include which specialty pharmacy you used to submit the prescription.
- CVS Specialty is our preferred hemophilia specialty pharmacy
